

SECTION 1**PURPOSE SCOPE AND DEFINITIONS**

The purpose of this tariff is to regulate the charges and conditions of application for work and services performed at ports, quays, piers and other coastal facilities entrusted by the state to the Operator, in accordance with the principles set out in laws, bylaws, regulations and instructions.

This tariff covers exclusive and nonexclusive work and services provided at the above facilities, as specified in the Operator's Articles of Association and in this tariff book.

SECTION 2**TRABZON PORT****BASE RATES FOR PILOTAGE TOWAGE MOORING FRESH WATER AND WASTE SERVICES****Table 1**

Table 1

TYPE OF SERVICE	CHARGES (USD)			
PILOTAGE	Per service for each vessel up to 1,000 GT		Additional charge per service for each 1,000 GT or part thereof above 1,000 GT	
	200		82	
TOWAGE	VESSELS UP TO 5,000 GT			
	Per service and per tug for vessels up to 5,000 GT		Additional charge per service and per tug for each 1,000 GT or part thereof above 3,000 GT	
	340		62

	<u>Small livestock</u>	3	3	3	-	-	3	6

For domestic trade cargo, loading and discharging using the Operator's equipment is charged at USD 3 per ton for general cargo and USD 2.50 per ton for dry bulk cargo.

The project cargo tariff also applies to cargo outside the project cargo category with a density of 10 tons/m³ or greater.

Loading and discharging of bagged or sacked cargo (1–100 kg) is charged at USD 7 per ton, excluding palletized cargo and big bags.

Loading and discharging of logs, all types of iron and sheet metal, big bags of at least one ton, paper rolls and steel pipes is charged at USD 5 per ton under all customs regimes.

An ISPS charge of USD 5 per full container applies to containers arriving at or departing from the port.

45-50	55	90-100	100
50-55	60		

Conditions applicable to project cargo:

Rates apply to one movement, from vehicle to vessel or from vessel to vehicle.

No additional charge applies if discharged cargo is delivered directly to a vehicle. If the cargo remains on a vehicle, however, storage is charged for each day.

If the Operator cannot provide requested loading or discharging services with its own resources, it may permit the customer to perform them with its own resources. In that case, 50% of the project cargo tariff applies.

The Operator may assess and price separately special projects involving large quantities of heavy cargo, such as construction of a new power plant.

For project cargo, the charge is determined using whichever produces the higher amount: cubic metres or tons.

A terminal charge equal to 25% of the loading or discharging charge from vessels applies to project cargo.

A daily storage charge equal to 5% of the loading or discharging charge from vessels applies to project cargo.

The above tariff also applies to cargo outside the project cargo category with a density of 10 tons/m³ or greater.

COAL DISCHARGE RATES

801–1,250 hp (Akbaş 1)	200
2,501–3,000 hp(Albayrak 61)	450

1) Hire is charged from the time the craft leaves its berth until it returns to its berth.

Time lost due to the Operator's fault is excluded from the charge. The base rate includes the craft and crew, carriage of people and cargo aboard it, and equipment used when towing is provided.

2) Hire of powered marine craft outside the port operating limits is subject to a 50% surcharge on the base rates.

3) The minimum charge for a hire service is one hour.

4) Hire outside the port operating limits is subject to a 50% surcharge and a minimum charge of four hours.

5) Towing with a hired powered marine craft is subject to a 50% surcharge on the base towing rate.

6) The same tariff applies when the Operator's craft pump water from a vessel taking on water.
